

# Road to Freedom

## Part IV - Blazing the Trail

### WK 7 L 7- Digging Empty Wells

First Name and last initial: \_\_\_\_\_ Date: \_\_\_\_\_

In Week 7 Lesson 7, we learned that digging empty wells equates to doing life our own way. We forget who is the only Source for life, and act like orphans instead. This assignment is meant to help you uncover empty wells you have built. Warning: some may be very deep. Regular guidelines apply for all levels of membership. Questions may also be posted in the private Road to Freedom Igniters facebook group.

What does the term "Living Water" mean to you?

Name at least 3 prominent empty wells of choice that you have dug which you would like freedom from. Why should you abandon them? What would you like in their place?

,

Of the 3 empty wells you mentioned above, what do you believe are their gateways?

Next, pray and ask God what are the real gateways to each empty well you chose. Ask, what, when, what, where, and why.

How did each one impact you in a negative way?

Download two charts: One chart that shows an example of empty wells, and one for you to complete for yourself in addition to the 3 above. As the course continues, you may become aware of more empty wells and you can use this chart for your benefit.
